## DETAILED ACTION

### *Double Patenting*

Claims 1-4, 9-10 and 13-19 provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 20-40 of copending Application No.09/734,282. Although the conflicting claims are not identical, they are not patentably distinct from each other because the current claims are merely broader in scope with the elimination of claimed features being obvious to one of any skill in the art..

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
